REINIGUNG UND PFLEGE - NETTOYAGE ET ENTRETIEN - PULIZIA E CURA - CLEANING AND CARE

DE Leuchte mit feuchtem, fusselfreiem Tuch reinigen. Nicht scheuern! Bei starker Verschmutzung kann eine schwache Seifenlauge verwendet werden (Spülmittel). Keine Scheuermittel verwenden. Leuchte nicht trocken abreiben, da die entstehende statische Aufladung die Elektronik zerstören kann.

FR Nettoyer le luminaire avec un chiffon humide non peluchant. Ne pas frotter! En cas de fort encrassement, une solution savonneuse douce peut être utilisée (liquide vaisselle). Ne pas utiliser de produits abrasifs. Ne pas frotter le luminaire à sec, car cela génère une charge électrostatique qui peut détruire les composants électroniques.

IT Pulire l'apparecchio di illuminazione con un panno umido, privo di pelucchi. Non sfregare! Se l'apparecchio è molto sporco si può utilizzare una soluzione di sapone molto diluita (detersivo per piatti). Non usare abrasivi. Non strofinare l'apparecchio a secco in quanto la carica elettrostatica che ne deriva può distruggere i componenti elettronici.

EN Wipe the luminaire with a damp, lint-free cloth. Do not rub hard! In the case of severe soiling, mild soapy water may be used (washing-up liquid). Do not use abrasive agents. Do not rub the luminaire dry, since the resulting static charging may destroy the electronics.
